AUDIENCE INSTRUCTIONS

¡Bienvenidos! The Barrio Stories Project is a fully immersive theatrical experience – instead of sitting in the dark for two hours, we invite you to walk through the world of the performance. Experience the people and places that used to live right where you’re standing.

1. Follow Your Group Assignment for Main Stage Performances
Upon entering the plaza, you were assigned to a group to ease traffic and optimize your experience. Please watch the three main stage shows in the order that corresponds with your group. This will ensure that audiences are evenly distributed among the three main stages; this will ensure you experience the best possible view.

2. Explore the Memory Fragments Between Main Stage Performances
Sprinkled throughout the TCC Plaza are short performance installations based on word-for-word oral history interviews with the former residents of this area. You will have approximately 20 minutes after each main stage performance to experience these cherished memories as you make your way to the next main stage performance.

3. Stick Around for the Post-Performance Pachanga!
Celebrate! After the giant puppet performance, stick around for mariachi and ballet folklórico performances by local youth ensembles. Visit the interactive art booths. Audio record your own memories of the barrio or reactions to the play. Get your photo taken at the portrait station.
CREATIVE TEAM
Marc David Pinate  Director/Lead Artist
Mila Ortiz  Project Coordinator
Elaine Romero  Lead Playwright
Virginia Grise  Playwright
Martin Zimmerman  Playwright
Wesley Creigh  Scenic Design
